

# GUINNESS WORLD RECORDS CHALLENGES

## GUINNESS WORLD RECORDS® CHALLENGES

The official GUINNESS WORLD RECORDS Challenges game tests how much you know about Guinness World Records and gives you a chance to display your skills by challenging other players.

## Instruction Manual

## Content

- 1 Guinness World Records game board
- 150 question cards about Guinness World Records titles (600 questions).
- 20 challenge cards:
  - 10 cards of '30 seconds' (Orange)
  - 10 cards of 'Best Time' (Purple)
- 1 Booklet of 'Guidelines for Challenges'
- 1 notebook
- 1 ping-pong ball
- 5 counters
- 1 dice

## Household objects you need to play (not included)

- Smartphone, or a timer with an accuracy of 0.01 seconds.
- 1 bottle of water 500 ml
- 10 pair of socks (at least).
- 1 set of 52 cards (It can be replaced by using question cards).
- 1 coin (10 pence, 1 € or 2€)
- 25 coins (2 pence or 0,05€ or 0,10€ or 0,50€ or 1€)
- 5 pint glasses (they can be plastic glasses)
- 25 metal Paper Clips
- 10 A4 Paper sheet
- 12 stainless tea spoons

## 2 Kind of cards

### QUESTION CARDS

These feature a photo of a Guinness World Records record holder on one side; on the other side these feature a record description with four related questions (in total, there are 600 questions).

### CHALLENGE CARDS

#### 30 seconds (ORANGE CARDS)

Undertake the challenges described and set a record based in 30 seconds proofs.

#### Best Time (PURPLE CARDS)

Attempt the record described on the card and establish a record based on a score.

## Note about the Challenges

- In offering you the possibility of attempting a **GUINNESS WORLD RECORDS** title through this board game, you should be aware that the minimum requirements listed on each of the Challenger cards have been set to aid the gameplay of the game and to be inclusive of all ages who might like to play. Consequently, even where you achieve the stated gameplay minimum, it may not qualify as an official GUINNESS WORLD RECORDS title as the official GUINNESS WORLD RECORDS title minimum may be much higher.
- You should also be aware that the records may also be attempted elsewhere, including on our website at [www.guinnessworldrecords.com](http://www.guinnessworldrecords.com), and in certain cases therefore, may have already been set at a level above the stated minimum. Additionally, all GUINNESS WORLD RECORDS titles have to be approved by Guinness World Records and will require the submission of suitable evidence. The records you may attempt as part of the board game are no different.
- As a result of the above, if you want to attempt the title in a way which could be recognised by Guinness World Records, the easiest way to do is to head to [www.guinnessworldrecords.com](http://www.guinnessworldrecords.com) where you can find information about whether the record has already been set and if so what the current record stands at. To set an official GUINNESS WORLD RECORDS title go to [www.guinnessworldrecords.com](http://www.guinnessworldrecords.com).

## 1. Objective of the game

Cross the finish line with three challenges in your possession and you will be the winner! You must possess at least one challenge of each colour (one purple card of 'Best time' and one orange card of '30 Seconds'), and the third can be any colour. Challenge your opponents, display your skills and improve your knowledge of Guinness World Records!

## 2. Preparation

1. Each player chooses a coloured counter.
2. All the counters are placed on the START square.
3. The Guinness World Records question cards should be shuffled and divided into two equal stacks placed where indicated on the board. The images on the cards should be face-down.
4. The challenge cards should be shuffled and placed where indicated on the board, with the back of the card facing up so that the challenges are not visible.
5. Depending on the number of players you will need a different number of challenge cards:
  - 2 players:** 3 cards 'Best time' + 3 cards '30 Seconds'
  - 3 players:** 5 cards 'Best time' + 5 cards '30 Seconds'
  - 4 players:** 7 cards 'Best time' + 7 cards '30 Seconds'
  - 5 players:** 9 cards 'Best time' + 9 cards '30 Seconds'

**Challenge cards for each game should be selected at random.**

**\*NOTE:** Cards can be rejected if the necessary accessories are not available.

**BEFORE PERFORMING THE CHALLENGES WE RECOMMEND READING THE GUIDELINES INCLUDED.**

The Dice's  
sides

**IMPORTANT NOTICE: The content on the question cards may become obsolete because official records are being broken all the time.**

Please retain this information for future use.

Warning! Choking hazard. Not suitable for children under 36 months. Contains small parts. Colours and content may vary. Please retain this packaging for future reference.

## 3. How to play

1. The youngest player goes first. Throw the dice and move the counter according to the score. When you throw the dice, you have two possibilities during your turn: if the dice shows a number (1 to 4) move your counter to the indicated position on the board; if the dice shows a colour move your counter directly to the next challenge square.

### QUESTIONS SQUARE:

- Choose a question card from the stack and answer the question that coincides with the number that appears on the dice you have just thrown.
- The question is asked by the player on the left.
- The record description in the header of the card should be read each time a new question card is used.

**REMEMBER! The number shown in the dice will be the number of the question which has to be read.**

**Example:** the dice shows the number 3. Move the counter 3 positions on the board and you have to answer the question number 3 of the question card selected.

### CHALLENGE SQUARE:

- You can access the challenge squares in two ways:
  1. If the dice shows a colour move directly to the nearest square of the corresponding colour.
  2. If the dice shows a number which will take you directly to a challenge square.
- You have to choose between either picking up a challenge card of the colour indicated on the dice, or challenging another player (who already has the same colour challenge card) to achieve a better score than you.
- If you beat the minimum shown on each card or you beat the record set by another player, you keep the challenge card and write down the score in the notebook provided.

**REMEMBER! The cards are placed in front of each player and should be clearly visible so that other players can assess the progress of the game and the owner of each record at all times.**

- » If you answer the question correctly or you beat the challenge, throw the dice and play again.
- » If you don't answer the question correctly, or if you don't beat the challenge, the turn passes to your right.

2. If you pass the "START" square without 3 different coloured challenge cards you must complete another circuit of the board to obtain the missing challenges. If you land on the "START" square you can perform a challenge of either card colour.

## 4. Who wins?

The first player to cross the finish line with three personal records in their possession (with at least two of different colours) becomes the **WINNER OF GUINNESS WORLD RECORDS CHALLENGES GAME!**
